## Thanks for making the time to take our quiz - What Type Of Warrior Are You In Business.

With the following information you are on your way to *unleashing the greatest version* of yourself by understanding how to **ACTIVATE the powerful Warrior King within.**

My name is Todd Jason and over the last 20 years I've become one of the most sought after trainers in the personal development space. I've helped *thousands of men* find their purpose, engage in more meaningful relationships, and significantly increase their incomes.

Along the way I noticed there were 4 main 'Warrior' types prevalent among modern men - with each one containing both positive *and* negative attributes.

This led me to creating this Warrior assessment - a truly potent tool that can have you understanding the greatest opportunities and biggest challenges inherent in your unique Warrior type.

**So let's get to it! Here are your results.**

## Your Warrior Type In Business "Warrior King"

Based on the information you've shared, and the little I know about you and your situation, the challenges inherent within the **Warrior King Archetype** provide important information that can help you actualize your highest potentials.

## Here's What That Means:

The Warrior King has a relatively clear sense for the most important things he wants to see in the future, and can be a powerful manifestor with no shortage of ideas.

The Warrior King's biggest challenge always relates to the HOW. If he doesn't have the right structure and system in place that enables him to systematically create his most desired future - the consequences can be dire.

It's like 'having the keys to the kingdom' but not being able to find the doorknob. He can become highly frustrated, anxious, confused, and even a bit depressed.

When The Warrior King finds the structure and organization to turn his ideas into reality - the world becomes his oyster.

But not knowing 'the HOW' creates havoc in his life. Those closest to the Warrior King often feel the wrath of his frustration as he can become mean and domineering.

## Common Mistakes & Pitfalls of The Warrior King:

If this Warrior Type is unable to locate the proper organizational tools to facilitate his ideas into reality, he runs the risk of constantly feeling like a failure. While all the ideas are right there, his inability to make things happen sends him into a painful spin cycle of negative thinking.

He becomes angry, and tends to lash out (either at himself or to those around him). At his very worst he becomes like a mini tyrant, trying hard to control everything in his life but really feeling like he has no control.

While all his great projects and ideas are right there, they just sit on the shelf because he's been unable to build the proper structure to support their emergence. If he continues to remain unaware of his need for structure and systems - his powerful energy will continue to chip away at his natural ambition and focus.

At his very worst he becomes a failed King - wallowing in self-defeat and spending his days thinking 'what could have been'.

## Here's What You Can Do About It:

Thankfully there are some practical and achievable steps you can take to avoid these outcomes and activate the very best of your **Warrior King**.

Here's what you can do almost immediately - and it all begins with integrating a short, yet potent, Warrior Activation Plan....

### Effective Warrior Activation for the King has 3 requirements:

#### 1 Life Blueprinting

This is the process for designing your life by 'thinking with the end in mind' and then systematically working backwards. When a Warrior King discovers this process he immediately finds his system and experiences wondrous flow & abundance again. Absolutely essential for him to do this....

#### 2 Reprogramming Negative Thinking

Adding super-charged awareness into your normal, everyday experiences gives you the ability to reprogram your perceptions for more positive outcomes. A Warrior King has a built-in vision to make his future predictable, he just needs a systematic approach to create limitless success.

#### 3 Community & Brotherhood

The true amplifier that empowers a Warrior King to break free is brotherhood. Once this man finds a place where he can receive mentorship and also give his unique talents - he is off to the races. His success becomes imminent.

Once a Warrior King says YES to engaging in this Activation Plan, it doesn't take long for the results to occur. The most important thing for him is to dedicate *time and effort to create this structure*.
