Thanks for making the time to take our quiz - What Type Of Warrior Are You In Business.

With the following information you are on your way to *unleashing the greatest version* of yourself by understanding how to **ACTIVATE** the powerful **Magical Warrior** within.

My name is Todd Jason and over the last 20 years I've become one of the most sought after trainers in the personal development space. I've helped *thousands of men* find their purpose, engage in more meaningful relationships, and significantly increase their incomes.

Along the way I noticed there were 4 main 'Warrior' types prevalent among modern men - with each one containing both positive *and* negative attributes.

This led me to creating this Warrior assessment - a truly potent tool that can have you understanding the greatest opportunities and biggest challenges inherent in your unique Warrior type.

So let's get to it! Here are your results.

Your Warrior Type In Business "Magical Warrior"

Based on the information you've shared, and the little I know about you and your situation, the challenges inherent within the **Magical Warrior Archetype** provide important information that can help you actualize your highest potentials.

MAGICAL WARRIOR SPECIAL REPORT

Here's What That Means:

The Magical Warrior enjoys the greater contemplations in life, and has a keen ability to see the larger picture. A master at taking in a variety of perspectives, this warrior type often takes his time before making decisions. This can be a good and bad thing....

While there are obvious benefits to 'thinking things through' one of the biggest mistakes he can make is to contemplate too much - getting himself stuck in a cycle of inaction.

Magical Warriors can get lost in pondering the endless benefits and downfalls of a given situation, and they often find themselves taking little-to-no action at all!

It's a fine line for this warrior type because while he values deep thinking, too much of it can make him feel confused, anxious, even to the point where he questions himself. If this happens he can become lethargic, confused and highly judgemental because he's unable to 'think himself out of it'.

If he becomes aware of this cycle - he can quickly toggle into a different mode and start taking action. But it's often very difficult for him to gain this level of self awareness.

Common Mistakes & Pitfalls of The Warrior King:

If this Warrior Type takes himself out of the game too long through extended periods of thinking and contemplation, he runs the risk of not being able to make wise and clear decisions (which is the whole point of deep thinking in the first place)!

If this happens the Magical Warrior can become increasingly introverted, isolated and frustrated in his everyday life. He becomes sour, negative, grumpy and more stingy than usual. People in his life notice this, and learn to 'stay away' instead of mistakenly trying to reason with him.

At the very worst the Magical Warrior becomes anything but magical - and spends too much time researching, thinking, arguing and losing touch with all the joys in life that surround him.

He becomes overly argumentative and even forceful in his own opinions. He loses the curiosity and lightness that marks the best versions of himself - and if he doesn't course correct he'll simply continue to make himself - and everyone else around him - miserable.

Here's What You Can Do About It:

Thankfully there are some practical and achievable steps you can take to avoid these outcomes and activate the very best of your **Magical Warrior**.

Here's what you can do almost immediately - and it all begins with integrating a short, but potent, Warrior Activation Plan....

Effective Warrior Activation for the Magician has 3 requirements:

1 Life Blueprinting

This is the process for designing your life by 'thinking with the end in mind' and then systematically working backwards. When a Magical Warrior discovers this process he immediately toggles into action and starts making tangible decisions again. Absolutely essential for him to do this....

2 Reprogramming Negative Thinking

Adding super-charged awareness into your normal, everyday experiences gives you the ability to reprogram your perceptions for more positive outcomes. A Magical Warrior has a built-in vision to make his future predictable, it just takes a systematic approach to start the action.

3 Community & Brotherhood

The true amplifier that empowers a Magical Warrior to break free again is community. Once this man finds a place where he can receive mentorship and also give his unique talents - he is off to the races. His success becomes imminent.

Once a Magical Warrior says YES to engaging in this Activation Plan, it doesn't take long for the results to occur. The most important thing for him is to take imperfect action steps. It doesn't have to be 100% right - it just has to be forward.
